ABOUT VIVIFY SOFT

Who We Are:

- Vivify Soft, founded in 2024 and based in Chennai, is a dynamic IT solutions and services company. We specialize in delivering innovative web and mobile applications, empowering businesses to streamline operations and achieve growth in today's fast-paced digital environment.

What We Do:

- We create customized, cloud-based, and value-driven solutions to simplify business processes, enhance workforce productivity, and improve safety and compliance. Our expertise spans across ERP, HRMS, mobile apps, and cloud storage solutions.

Our Team:

- From consulting and development to deployment and support, our experienced team delivers scalable solutions on SaaS, Cloud, and On-Premises platforms. Our team includes developers who create robust applications, testers who ensure quality and reliability, and a production/support team that manages deployment and ongoing operations. We specialize in building applications such as Vivify Technocrats Safety App, HRMS, Reimbursement solutions, and Crackers websites, serving businesses of all sizes, from SMEs to large enterprises.

OUR VALUES

VISION

To become a trusted global IT partner, delivering innovative and efficient solutions that simplify business operations .

MISSION

To provide simple, effective, and scalable solutions through a highly skilled, motivated, and customer-centric team.

OUR SERVICES

CONSULTING SERVICES

Understanding business needs and providing expert guidance for technology solutions.

APPLICATION DEVELOPMENT

Building custom web and mobile applications tailored to client requirements.

DEPLOYMENT & IMPLEMENTATION

Ensuring smooth rollout of applications on SaaS, Cloud, or On-Premises platforms.

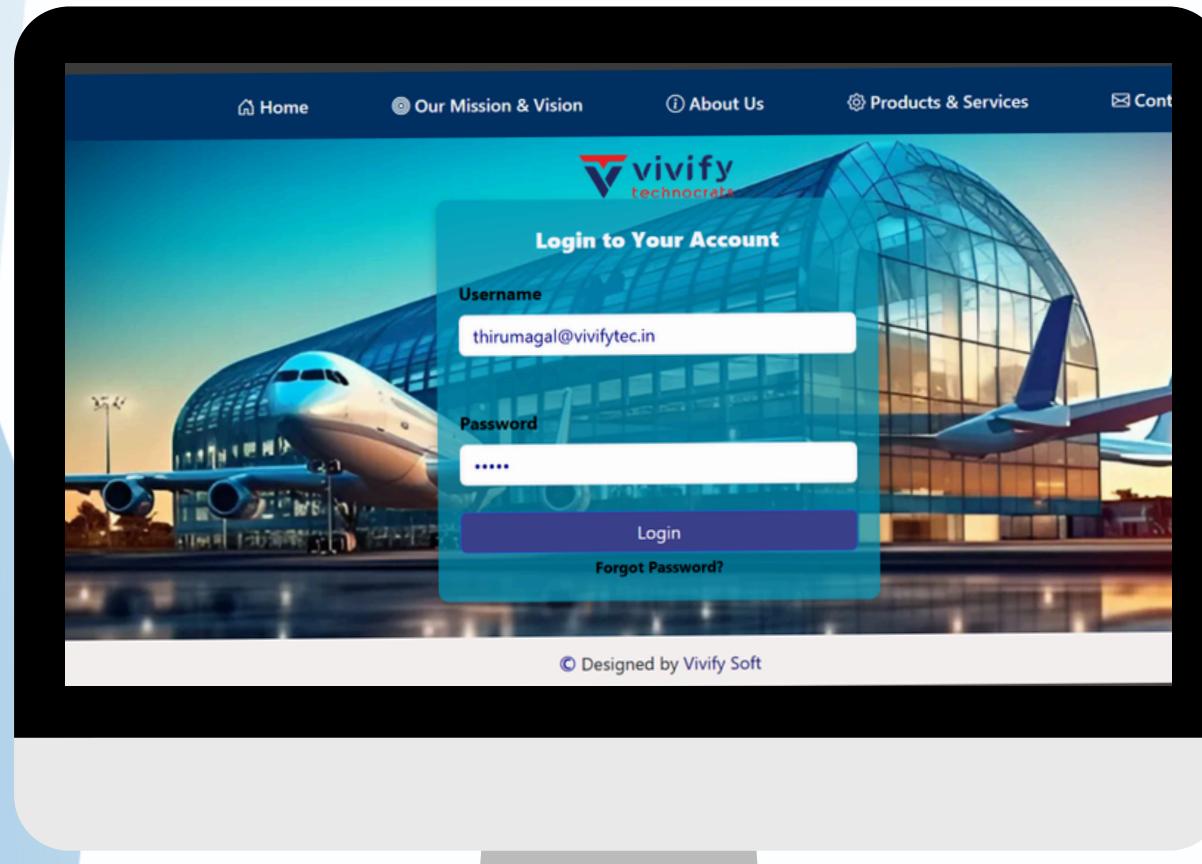

SUPPORT & MAINTENANCE

Providing ongoing support, updates, and troubleshooting to keep systems running smoothly.

OUR PROJECTS

(REIMBURSEMENT)

The Reimbursement project streamlines employee expense claim management by enabling digital submission, review, and approval. It minimizes manual paperwork, reduces errors, and speeds up processing for both employees and managers.

Key Advantages:

- Faster claim approvals and reimbursements
- Improved accuracy and transparency
- Reduced administrative workload
- Easy tracking and reporting of expenses

Technologies Used:

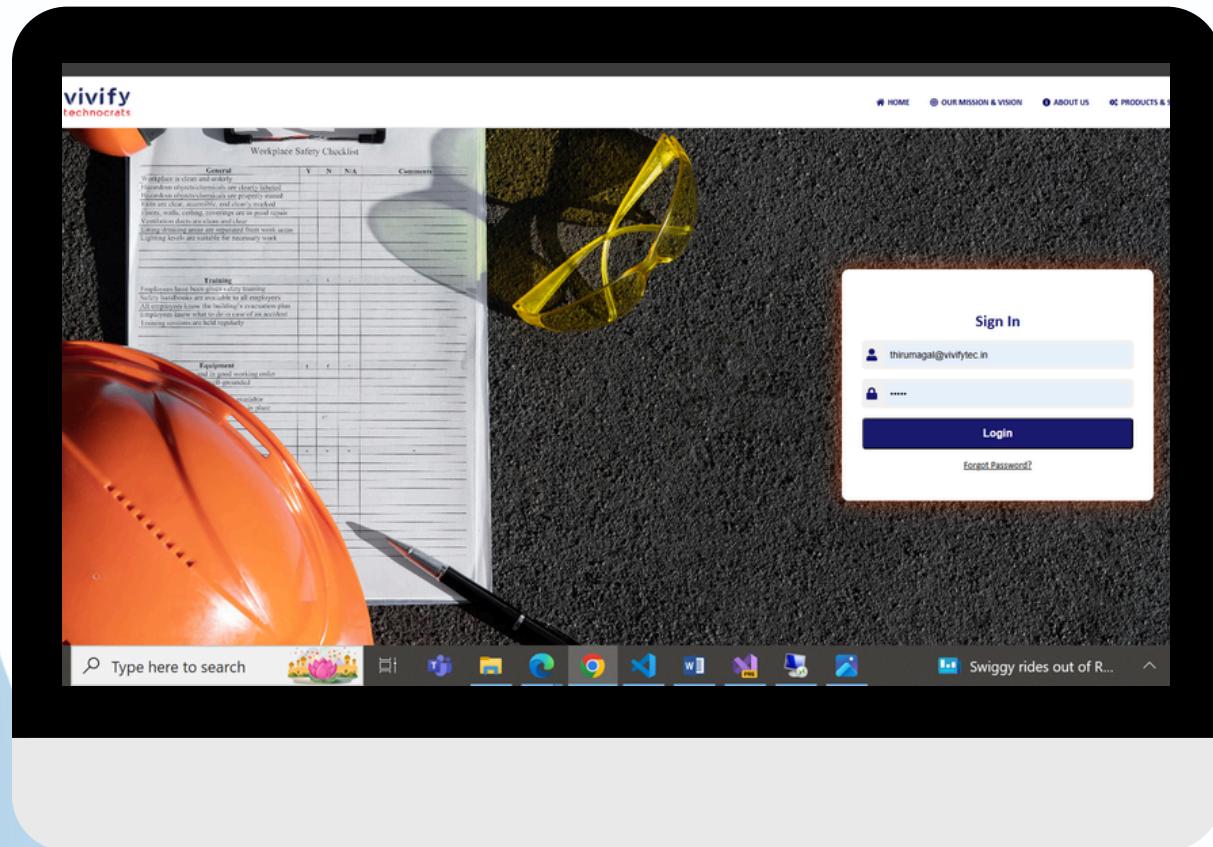

- .NET Framework – Backend development and business logic
- SSMS (SQL Server Management Studio) – Secure and efficient database management.

SAFETY TOOL BOX

The Safety Toolbox project enhances workplace safety by providing digital training, attendance tracking, audits, and incident reporting. It includes both mobile and web applications, allowing employees to access safety videos, submit checklists, and generate PDF reports, ensuring compliance and real-time monitoring.

Key Advantages:

- Streamlined safety training and compliance
- Real-time incident and near-miss reporting
- Digital audits and PDF reporting
- Improved workplace safety and monitoring

Technologies Used:

- ReactJS – Frontend for web and mobile
- .NET Core – Backend and business logic
- SSMS (SQL Server) – Database management

Web App: <https://vivifysoft.in/safety/#/AdminLogin>

EMPLOYEE HUB

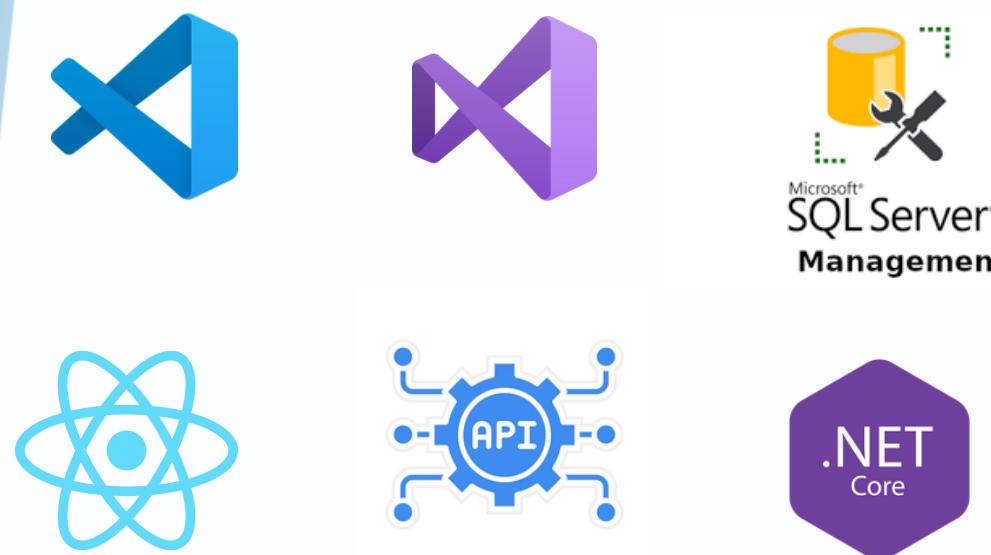

The Employee Hub project streamlines HR processes by managing onboarding, offboarding, salary reports, payslips, induction, and leave management. It web applications, providing employees and managers with easy access to HR services and self-service features.

Key Advantages:

- Centralized HR management and self-service
- Salary generation based on compensation formulas
- Dashboard displaying birthdays, work anniversaries, and key HR metrics
- Easy tracking of leave, induction, and payroll processes

Technologies Used:

ReactJS – Frontend for web and mobile
.NET Core – Backend and business logic
SSMS (SQL Server) – Database management

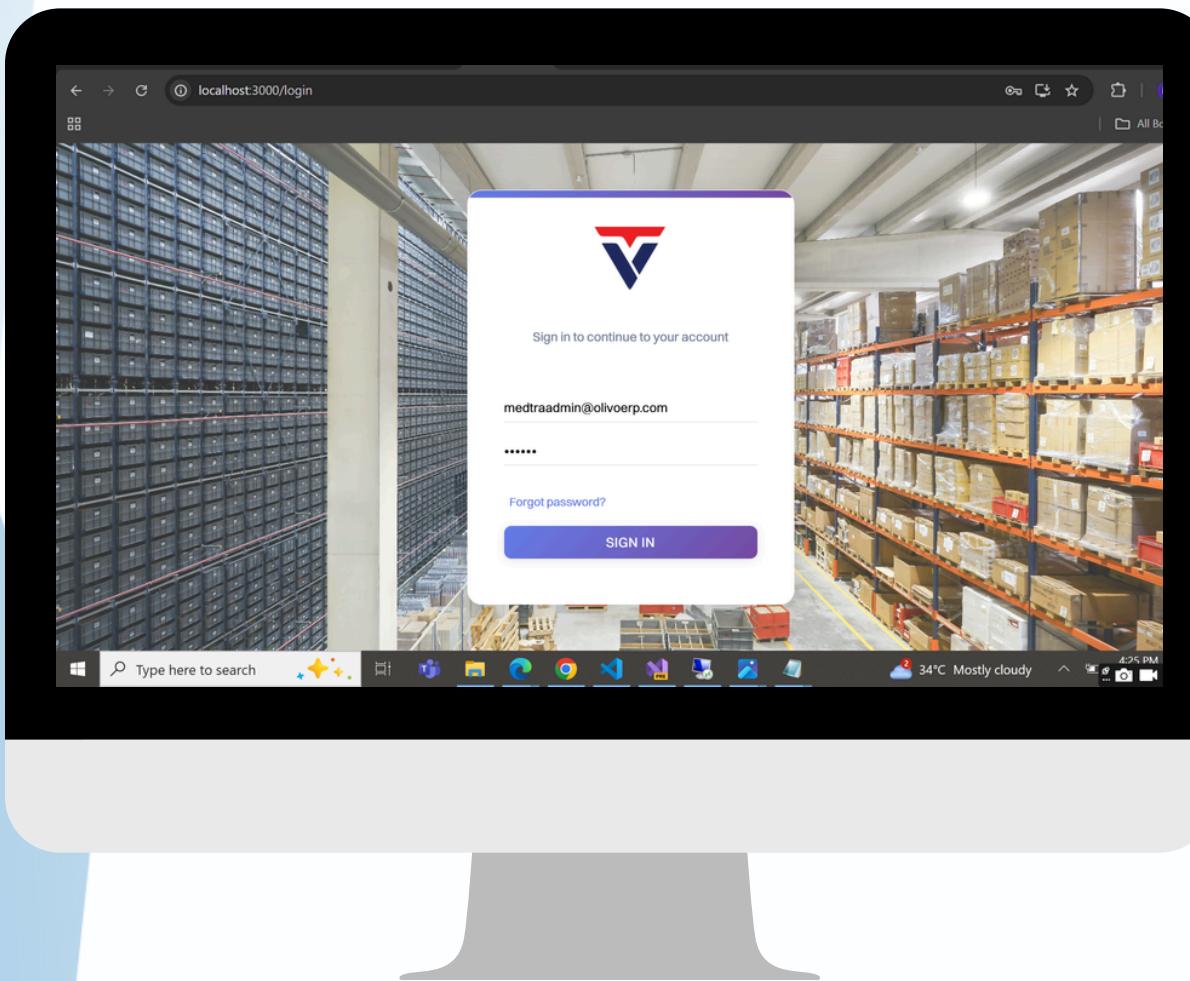

Website Url:

<https://vivifysoft.in/employeehub/#/Login>

ERP

The ERP project streamlines core business processes by managing inventory, accounts, purchase, and sales operations. It includes both web and mobile applications, providing employees and managers with centralized access to business data, real-time updates, and reporting tools.

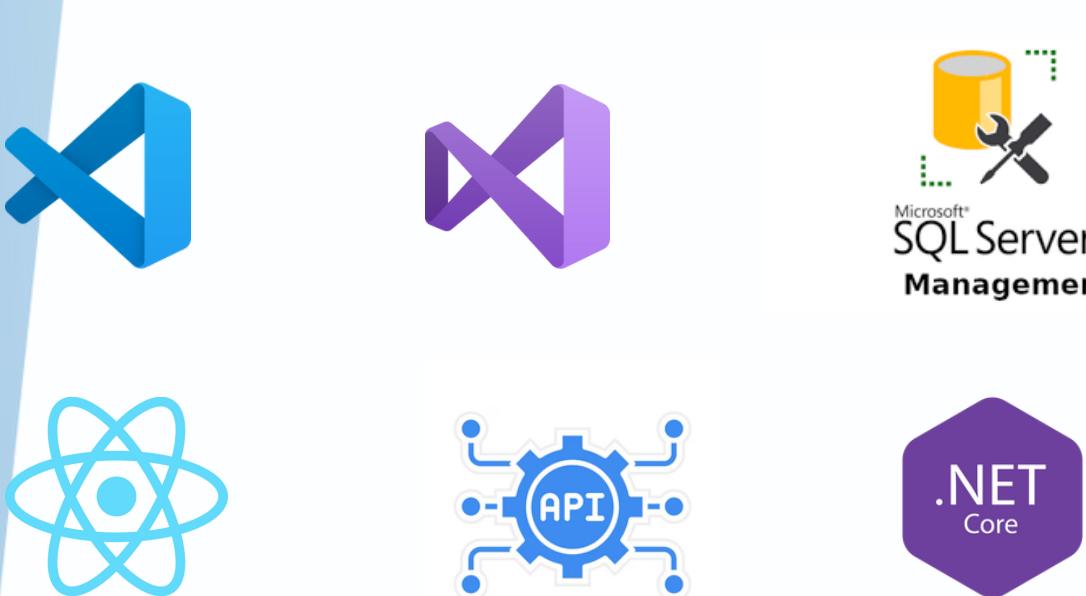

Key Advantages:

- Centralized management of inventory, accounts, purchases, and sales
- Real-time data tracking and reporting for informed decisions
- Automated workflows and reduced manual errors
- Improved efficiency across business operations

Technologies Used:

- ReactJS – Frontend for web and mobile
- .NET Core – Backend and business logic
- SSMS (SQL Server) – Database management

Website Url:

<https://vivifysoft.in/ERP/#/Login>

CRACKERS

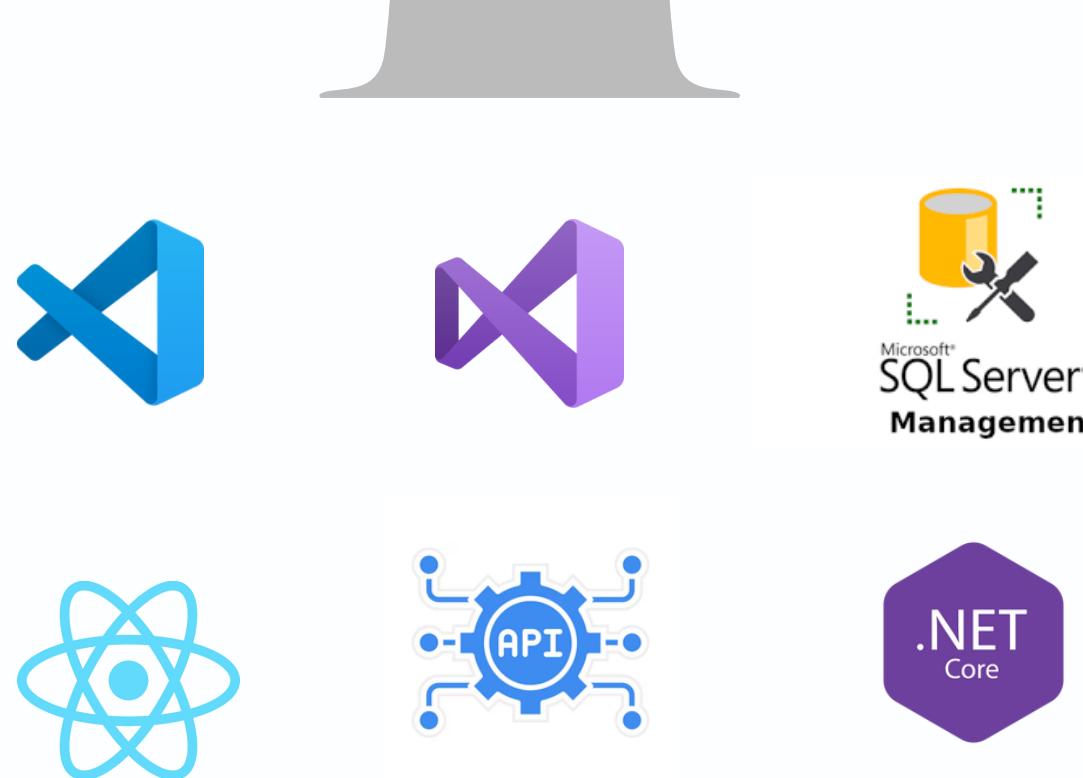

The Diwali Crackers E-commerce projects provide customers with an online platform to browse and order a variety of crackers. These websites offer seamless product selection, secure ordering, and easy checkout, enhancing the festive shopping experience.

Key Advantages:

- Easy online ordering for customers
- Secure payment and order management
- User-friendly interface with product catalog
- Efficient order tracking and fulfillment

Technologies Used:

- ReactJS – Frontend for web and mobile
- .NET Core – Backend and business logic
- SSMS (SQL Server) – Database management
